BACKGROUND REPORT

The Transportation Commission was created in 2004 to advise the Board on transportation-related issues. After extensive research, the Commission members provided the Board with a prioritized list of secondary road projects, and evaluated the County's transportation environment overall. Its eight members also sought input from Stafford residents on matters including traffic signals, signs and safety measures. Proposed Proclamation P08-04 commends the Commission for its work on behalf of all the citizens of Stafford.
